

WALKPORT

Supportive Walking. Simple. Practical. Accessible.

WalkPort is a supported walk station offering a straightforward approach to walking therapy with targeted support for mobility, balance, and weight shifting.

Designed for Simplicity

- Easy set-up – one adjustment
- No harness or extensive programming
- One push button to a full weight bearing stand
- During walking you are fully supported ensuring stability and comfort

Supports Diverse Mobility Needs

- Neurological Disorders – SCI, MS, PD, CVA's, Stroke
- Post-Surgical Rehabilitation
- Geriatric Rehabilitation
- Musculoskeletal Injuries

Less Complexity. Better Experiences.
